

Ecomax Marine Waste Compactor

Oilmax

Heavy duty waste compactors for garbage management in marine applications to help with increased stringent Garbage regulations in marine & offshore industry.

Marine waste like Empty Drums, Boxes/Cartons, Metal Cans, Plastic Bottles, Cardboard, Paper, used Filters & similar waste produced on board can be easily compacted to **smaller volumes for safe & efficient storage.**

Compacted waste (1/10th Of original volume) can be stored in more quantity for longer duration & can be **disposed off at a convenient & most economical port.**

Salient Features :-

- ◆ Rugged Design with high **compaction force**
- ◆ Great reduction in Trash volume
- ◆ **Automatic** Hydraulic operation with Powerful stroke
- ◆ Safety interlock for door & Overload protection for motor
- ◆ Simpler operation and **easier to Install**
- ◆ Low Initial & operating costs with very little maintenance
- ◆ **Substantial Reduction** In waste handling costs
- ◆ Rapid compaction stroke with more compression output
- ◆ Heavy duty structure with fixed mounting arrangement
- ◆ Special Electroless Nickel Anti-Corrosion Coating for critical components

Use *Oilmax*
Save Environment

Application :-

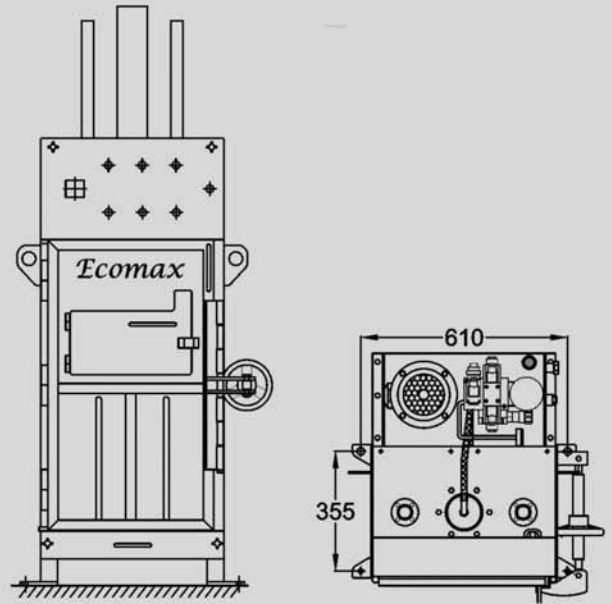

Compactors are designed to use on all types of ships & offshore applications.

One Time Installation, Lifelong Savings

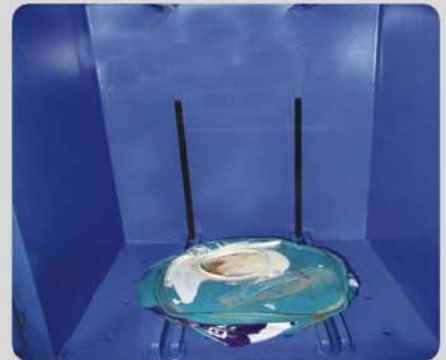

Compactor Technical Specifications

Model Ecomax 100 - 4

- Compaction Chamber Volume : 100 Litres
- Compaction Power : 4.0 Ton
- Compaction Ratio : 6 : 1
- Compaction Stroke Length : 600 mm
- Compaction Cycle : 30 Seconds
- Overall Dimensions : 750 X 730 X 1715 mm
- 3-Phase 50/60 Hz 380-440 V, 3.0 HP
- Safety : Control Circuit Voltage 24 V DC, Interlock for door & Overload protection for motor
- **Standard Accessories** : PP Garbage bags & Reusable strapping ties

Compacted Waste : Before & After

Note: ♦ Different capacity ratings & specifications can be provided as per customer requirement.
♦ Pneumatically operated compactors are also available.
